EXPERIENCE

Quest Global | Software Engineer   Bengaluru, Karnataka
JavaScript, ReactJS with Node-CLI, NodeJS & AWS   Jan 2022 - Present

- Led the development of a complex web application, driving architectural decisions and ensuring adherence to best coding practices, resulting in a 20% improvement in application performance.

- Collaborated with Product Managers and UX designers to translate business requirements into technical specifications, leading to a 30% reduction in project delivery time.

- Mentored and guided junior developers, fostering a collaborative and innovative team culture, resulting in increased productivity and employee satisfaction.

- Conducted code reviews to maintain code integrity and enforce coding standards, resulting in a more robust and maintainable codebase.

- Implemented RESTful APIs to integrate the application with third-party services, expanding its functionality and customer reach.

- Worked on a project Web-based Platform alternate for existing Low-Code Platform. The system is based on server-client architecture. The server is hosted in Amazon-Cloud. This Tool uses NodeJS as back-end and RDS is used for handling DB related Tasks.

INDEGENE LIFESYSTEMS PRIVATE LIMITED | Web Developer   Bengaluru, Karnataka
JavaScript, HTML5, CSS3, Bootstrap   Dec 2018 - Dec 2021

- Work with a variety of JavaScript tools, technologies, and frameworks such as React/Redux/Hooks/REST APIs.

- HTML5, CSS3, Bootstrap, and JavaScript were used to design and construct responsive websites for pharmaceutical companies

- iPad Detailing (iDetailing) is used by Medical Representative. It makes detailing easier for sales associates, provides enormous possibilities for marketing to present the content with inclusions of infographics, animated charts, pop ups and many more.

- Medical Representatives use email to advertise drugs. It is primarily designed for email clients such as Outlook and Gmail. Testing browser compatibility across many platforms, including Gmail, Outlook, Chrome, and Safari
